Dear friends!

In preparation for the upcoming 2023-2024 Christmas Conference and in connection with the centenary cycle, we have to renew the laying of the Foundation Stone and the action of the substance of the 1923-1924 Christmas Meeting. Thanks to this, we will be able to consider and even solve the most burning current problems of the Anthroposophical Movement with renewed vigor. Among them:

- The threat from artificial intelligence to carry out the capture of human civilization; the possibility of its spiritualization and safe cooperation with it.
- Possibilities of conscious entry into the Heavenly Goetheanum due to the construction of the Virtual Goetheanum.
- Mysterious places in the "Economic Course" by Rudolf Steiner and new opportunities for implementing associative economics (including with the help of spiritualized artificial intelligence).
- The key issues of the history of the Anthroposophical Society from the standpoint of modernity as missed opportunities for development, distortions of the spiritual impulse and the tasks of today; the causes of the fiery death of the Goetheanum.

The conference is held within the framework of the Free High School for Spiritual Science under the wing of the Esoteric Youth Circle.
